MINUTES OF MEETING

Date: 14.02.2020

Location: HOD-ASH OFFICE

Time: 04:00 pm

Members Present

1. **Dr. O.P. Chaudhary, Chairman- HOD-ASH**
2. **Mr. Prabhakar Sharma, Secretary- EEE**
3. **Dr. Sanjay Kumar Mishra, Member ASH**
4. **Dr. Ruchi Srivastava, Member ASH**
5. **Dr. P.C. Jha, Member ASH**
6. **Mr. Sachin Sinha, Member MBA**

Following points were discussed during the meeting:

S. No.	Issue/ Area of concern	Actionable Points	Action/ Follow-up
1	Enhance FDP Advance Levels in our college faculties	• Encourage faculties including value education cell members to attend coming refresher /level-2 FDP organized by the University in this summer. • Advance level certificates enable us to conduct and organize AKTU value education cell FDP'S.	**Chairman**
2	Faculty Members/ Staff/ Admin to attend FDP	• All Faculty Members/ Staff/ Admin attend at least level-1 or foundation level workshop organized by the university in coming semester. • New faculty members also introduced in these FDP's.	**Chairman & Secretary**
3	Student Group formation	• Formation of Student's Group for the Value Education Cell. From Each Department 2-3 students is included in this group. • Also include all students in Value Education cell WhatsApp group.	**All Member**
4	Plan - CSR activity	• Plan to conduct a CSR activity after student group formation nearby Greater Noida.	**All Member**
5	Value Education Cell Room Preparation	• Room for Value Education Cell is already allocated for value education cell activities. • Discussed and prepared the requirement list to make it functional and effective.	**All Member**

WORK REPORT

HUMAN VALUE EDUCATION CELL

Name of Event: Human Values session in First Year orientation program

Date of Event: 3rd - 6th August 2019,

Organized by: **Applied Sc and Humanities deptt.**

Event Cocrdinator: **Mr. Prabhakar Sharma**

Objective:

To orient First Year newly admitted students in Human Values and Ethics

Report:

Third day of the orientation program i.e 3rd August 2019 was started by Dr. Tooran Kapoor, Assistant Professor on Universal Human & Professional Ethics. An attempt has been made to draw the attention of our newly admitted students towards the problems and challenges that are there in front of them at the levels of individual, family, society and nature. Through the method of a vibrant dialogue students are encouraged to do self exploration to differentiate the right from the wrong and stay committed to the decisions taken on the basis of their natural acceptance. The modern day man is beset with many problems; the chief among them is the feeling of alienation and rootless.

Many of our newly admitted engineering aspirant ask questions about the meaning of life and one's purpose in this world remain unanswered for a majority of the people. In the absence of correct understanding of one's aim people face problems at the individual level, and at the level of family, society and nature. Whichever level of existence we might concentrate upon; people are restless, unhappy, jealous and bogged down. The same attitude is carried forward when they have to interact with nature where they end up mercilessly and mindlessly exploiting nature.

On 6th August 2019, Dr. Preeti Tiwari given second lecture on Universal Human & Professional Ethics explained importance of Right Understanding in our life and how right understanding improves the human behavior and make co-existence in the space.

A Report on

Human Values and Professional Ethics

From 08.08.2018 to 14.08.2018

ITS Engineering college Greater Noida conducted a two days workshop in B.Tech Orientation programme on "Human Values and Professional Ethics" **by Dr. Preeti Tiwari, Asst. Professor, ASH Department** for all students of first year in Sardar Patel Auditorium.

On the first day she explained and outlined the human values and how they can be developed in day to-day life. She dealt with the following issues:

- Values are individual in nature.
- Values are comprised of personal concepts of responsibility, entitlement and respect.
- Values are shaped by personal experience, may change over the span of a lifetime and may be influenced by lessons learned.
- Values may vary according to an individual's cultural, ethnic and/or faith-based background.

She explained the importance of basic and fundamental values "Never change your core values." This program concentrated on how to discern what is right for us and for the nature in context of human values principles specially in the present scenario of today's world, where we are, all the time harming self, society and nature only to have self prosperity.

In spite of all the change around you, decide upon what you will never change: your core values. Take your time to decide what they are but once you do, do not compromise on them for any reason. Integrity is one such value.

She dealt on second day the professional ethics. She explained the necessity of moral dilemma and moral autonomy. Professional includes moral integrity, professional responsibility, self respect and accountability.

The outcomes of the workshop:

The participants will became aware of

1. Self-Direction: Independent thought and action; choosing, creating, exploring.
2. Achievement: Personal success through demonstrating competence according to social standards.
3. Security: Safety, harmony, and stability of society, of relationships, and of self.
4. Benevolence: Preserving and enhancing the welfare of those with whom one is in frequent personal contact

The workshop came to end with the oral feedback from the students and query handling session.

Name of Event: **Human Values and Professional Ethics Session in 1st Year Orientation**

Dates of Event: 31st July 2017 & 1st August 2017

Organized by: **Applied Science and Humanities Department**

Event Coordinator: **Prof. R.B. Sharma, Head-CRC, ITS Engineering College, Greater Noida**

Objective:

To orient First Year newly admitted students in Human Values and Ethics

Report:

ITS Engineering college Greater Noida conducted two days workshop in B.Tech Orientation programme on "Human Values and Professional Ethics" by **Prof. R.B. Sharma, Head-CRC, ITS Engineering College, Greater Noida** for all students of first year in Sardar Patel Auditorium.

On the first day Prof. Sharma explained and outlined the human values and how they can be developed in day-to-day life. He dealt with the following issues:

In India, many students work hard to get decent grades. But yet struggle to gain employment. Apart from their syllabus, the students should learn the ability to self-manage, solve problems and understand the business environment. They should work as a team member with time and people management. They need to be alert, adapt to different roles and flexible in working environments. With this pressure to cope, it is vital that students are taught to manage their lives with empathy – human values need to be inculcated into their very being.

Students gets benefitted by the development of life skills and values in the following ways

- Find new ways of thinking and problem solving
- Avoid to blame others by taking responsibilities
- Attain skill to develop self-confidence
- Build self-awareness
- Build the skill to appreciate others
- Evaluate and make decisions

Prof. Sharma explained - Professional ethics are values that manage the attitude of a person or group of corporate/professional environment. It also provide guidelines on an environment on how a person should act towards other people and institutions Education is clearly about understanding (what to do?), learning skills (how to do?) and practicing the understanding & skills leading to fulfillment of one's purpose. It is not just about learning skills (how to do?). The subject which deals with "what to do" and "what not to do" is called value education – it facilitates development of Right Understanding. The subject which deals with "how to do" is called technical education or professional education – it facilitates development of skills.

As there is a complementarity among them and are required, the priority need to be values, than skills.

Prof. Sharma dealt on second day the professional ethics. He explained the priority need to be values, than skills.

The impression on students on professional ethics are

- Students respect professionalism
- Students disagree dismissal of an employee who are against law

Director
ITS Engineering College
Greater Noida

- Students respect code of ethics

The outcomes of the workshop:

- Understand and define the concepts of integrity and ethics
- Identify ethical dilemmas and apply different theoretical approaches
- Understand the ideas of values, ethics and morality in a multicultural context
- Understand the relationship between ethics and society
- Explain effective ethical leadership

The workshop came to end with the oral feedback from the students and query handling session.

Name of Event: Human Values session in First Year orientation programme

Date of Event: 5 August 2016

Organized by: **Applied Sc and Humanities deptt.**

Event Coordinator: **Dr. P. C. Jha**

Objective:

To orient First Year newly admitted students in Human Values and Ethics

Report:

An attempt has been made to draw the attention of our newly admitted students towards the problems and challenges that are there in front of them at the levels of individual, family, society and nature. Through the method of a vibrant dialogue students are encouraged to do self exploration to differentiate the right from the wrong and stay committed to the decisions taken on the basis of their natural acceptance. The modern day man is beset with many problems; the chief among them is the feeling of alienation and rootless.

Questions about the meaning of life and one's purpose in this world remain unanswered for a majority of the people. In the absence of correct understanding of one's aim people face problems at the individual level, and at the level of family, society and nature. Whichever level of existence we might concentrate upon; people are restless, unhappy, jealous and bogged down. The same attitude is carried forward when they have to interact with nature where they end up mercilessly and mindlessly exploiting nature.

The purpose of education is to provide all encompassing solutions to the problems faced by the people. The tragedy of the prevalent system is that our education is more oriented towards creation of skill sets rather than transforming the students into rational, responsible and thinking human beings who can take policy decisions for the welfare of masses without harming the coexistence with nature.
