

INSTITUTIONAL DISTINCTIVENESS

1. The institute geared up for providing inspiring learning experience to its students. The academic requirements like attendance policy, adherence to teaching schedules, and syllabus completion as per timeline and student performance in examinations were effectively planned, implemented and audited.
 2. Vision of the Institution is, to aspire for the welfare of society through excellence in science and technology. Institution consistently inspires students and provides platform for technical skill development, multidisciplinary project development, Entrepreneurship development, Ethical and Human value development.
 3. With the trust of academic and technical excellence, Institution motivates and support students to participate in various competitions. Students learn ethics, team building, technical skills, presentation skills, project management and financial management.
 4. They also experience their physical strength, healthy competition environment and global standards by participating in globally recognized competitions.
 5. Institution not only encourages students to participate but also provides financial support.
